

Addendum to 3.11 Early Years Division – Pandemic Policy

LICENSED AND REGULATED CHILD CARE ENHANCED PROTOCOLS DURING COVID-19 (REPLACES Nov 11 2020 VERSION)

Introduction Coronavirus Disease 2019 (COVID-19) is a respiratory disease caused by the SARS-CoV-2 virus. To reduce the impact of COVID-19 outbreak conditions on our children, staff and families, it is important for us to plan for COVID-19 and mitigate the associated risks. This document provides guidance and direction for staff and families to reduce the potential risk for infection during Ontario’s Recovery Period.

The protocols and procedures outlined herein are extensions to the SEC Policies, Protocols and procedures to meet compliance standards for child care as referenced below. In some cases, the standards outlined may exceed, change or adapt to the current approved standards of SEC policy, SEC will adopt any standard as and when directed by health authorities and update these procedures as required.

Pandemic measures and or policy will be reviewed with all program staff prior to their start date. All staff must complete any required training have received proper personal protective equipment and be fully prepared to uphold and practice all new polices, protocols and practices prior to being scheduled for direct service.

The SEC policies, protocols and procedures in conjunction with the *Licensed and Regulated Child Care Enhanced Protocols During COVID-19* will remain in place until such time that SEC confirms the Ministry of Education and York Region Public Health indicate it is safe to return to normal operating procedures and or makes further changes to health and safety recommendations. All child care programs are required to follow all COVID-19 health and safety requirements and regulations, and ensure all current infection prevention and control practices are adhered to.

OPERATIONAL PROCEDURES DURING THE RECOVERY PERIOD

Sanitization of the space, toys and equipment

To minimize the spread of COVID-19, enhanced cleaning and disinfection procedures must be put in place. Please refer to York Region Public Health presentation COVID-19 Guidance for Child Care for current requirements

Procedure:

SEC has implemented enhanced cleaning and disinfecting measures to help reduce the spread of infectious illness. A schedule of the frequency of cleaning and disinfecting required has been recommended by Public Health. A focus is placed on high touch areas including door handles, sinks, toilets, and toys. Any toy that is difficult to clean and disinfect has been put away (i.e. plush toys, dress-up clothes, puppets). Anytime a child places a toy in their mouth, coughs or sneezes on a toy, it is taken out of rotation until it can be cleaned and disinfected.

Disinfectants to be used:

Both York Region District School Board and York Catholic District School Board will provide the required and approved disinfectant. This product meets public health guidelines. In programs operating in those locations, labelled spritz bottles will be filled, appropriately labelled and will be available, out of children's reach, in each program room, the kitchen and bathrooms for use. Disposable cleaning cloths and gloves will be in use during cleaning and sanitizing.

Bleach and water is the disinfecting product for use on SEC toys and equipment and in their regulated and licensed programs not located in schools. This product meets public health guidelines. Labelled spritz bottles filled with bleach and water will be placed, out of children's reach, in each program room, the kitchen and bathrooms for use. Disposable cleaning cloths and gloves will be in use during cleaning and sanitizing. For proper concentration (recipe) refer to [York Region - Proper Cleaning Disinfection Practices](#) During a Pandemic we follow Outbreak requirements.

In addition:

- There will be a cleaning and disinfecting schedule (log to be completed daily) for each space.
- Cleaning and disinfecting routines will be increased where the risk of environmental contamination is higher.
- All touched surfaces will be cleaned and disinfected frequently (minimum twice per day).

High-touch surfaces: any surfaces that have frequent contact with hands (e.g., light switches, shelving, containers, table tops, hand rails, door knobs, sinks, toilets etc.). These surfaces will be cleaned at least twice per day and as often as necessary.

Low-touch surfaces: (any surfaces that have minimal contact with hands), will be cleaned and disinfected daily (e.g. Window ledges, doors, sides of furnishings).

Toys and equipment: will be cleaned and disinfected at a minimum between cohorts. Mouthed toys will be removed, cleaned and disinfected after each use by a child.

Tables and countertops: used for food preparation and food service will be cleaned and disinfected before and after each use.

Spills: will be cleaned up and disinfected immediately.

Floors: cleaning and disinfecting will be performed as required, i.e., when spills occur, and throughout the day when rooms are not in use, i.e., during outdoor play.

Outdoor play equipment: will be cleaned and disinfected between cohorts, and as required (e.g. balls, sand toys).

Hard (Non-porous) Surfaces: If surfaces are dirty, they will be cleaned using a detergent or soap and water prior to disinfection.

Soft (Porous) Surfaces: Indoor area carpets and other soft (porous) items will be removed as required from the child care program prior to reopening.

Electronics: For electronics such as tablets, touch screens, keyboards, remove visible contamination if present.

- Follow the manufacturer's instructions for all cleaning and disinfection products.
- If no manufacturer guidance is available, alcohol-based wipes or sprays containing at least 60% alcohol will be used to disinfect touch screens. Dry surfaces thoroughly to avoid pooling of liquids.

Laundry

- All laundry will be handled in a manner that minimizes spreading the virus.
 - Staff will use appropriate PPE when handling laundry including gloves, eye protection and a gown.
 - Laundering will be done with regular laundry soap and hot water (60°C – 90°C) and dried thoroughly.
 - Linens (cot sheets) soiled with fecal material will be washed separately.
 - Children's soiled clothing will be bagged and sent home to be laundered.
 - Clothing and linen from an unwell/infected child will be sent home for cleaning.
 - Washcloths, towels and linens will not be shared between children and laundered after each use.
 - Bedding (e.g., sheets and blankets) used for sleeping is laundered at least weekly or when visibly soiled.
-

Managing and Reporting Illness

In order to minimize the spread of COVID-19 and contain outbreaks within the child care centre, staff/home child care providers, parents and guardians, and children will not attend the program if they are sick. Standardized screening questions from Ministry of Health are to be used. If an individual does not pass the screening, they are not permitted to attend the program. If siblings are asymptomatic and have not come into close contact with a confirmed case of Covid-19, and have not travelled outside of Canada in the past 14 days, then the siblings can continue to attend care.

Daily and individual site and program attendance records will be a requirement for all programs and attendance of staff at all locations. Such records will be maintained for the purposes of exposure tracking.

A serious occurrence will be reported to the Ministry when a child, staff or home child care provider has a confirmed case of COVID-19, and York Region Public Health will be contacted. Details of reporting and managing illness can be found on: [Re-opening and Resuming Business during COVID-19 | York Region](#)

Procedure:**MANAGEMENT OF STAFF/CHILDREN WITH POSSIBLE COVID-19**

Child care staff, parents/guardians and children must not attend the program if they are sick, even if symptoms resemble a mild cold.

Staff who become ill while at the child care centre should be sent home immediately and directed to seek assessment and possible testing if required at a COVID-19 Assessment Centre.

If child begins to experience symptoms of COVID-19 while attending child care: Isolate the sick child and notify parents/guardians or emergency contacts for pick up immediately. Each site will identify an isolation area that provides for the best separation from others, comfort for the individuals and post cleaning ease.

- The sick child should be kept at least 2-metres from others.
 - Provide the child with tissues and remind them of hand hygiene and proper respiratory etiquette and disposal of soiled tissues.
 - Provide the sick child with a procedural mask if tolerable and above the age of two.
 - Staff who supervises an ill child must wear a gown, mask, eye protection and gloves at all times and not interact with others.
 - Avoid contact with the child's respiratory secretions.
 - Perform meticulous hand hygiene.
 - Clean and disinfect (outbreak level disinfectant) the space and items used by the ill child.
 - For items (e.g., paper, books and cardboard puzzles) that cannot be cleaned, they should be removed and stored in a sealed container for a minimum of 7 days.
 - Contact York Region Public Health (call 1-877-464-9675 ext. 73588 between 8:00 a.m. and 8:00 p.m., seven days a week or after hours you can call 905-953-6478) and their advice will be followed. If the child care program is located in a shared setting (for example in a school,
-

community setting or a Welcome Centre) we will follow public health advice on notifying others using the space of the suspected illness.

- In the event that a COVID-19 positive case is identified in the child care centre, further direction will be provided by York Region Public Health on who else in the child care centre may need testing and/or isolation at that time.
- Staff who have been in close contact with an ill child should self-monitor for symptoms for the next 14 days. They should be advised to avoid being in contact with vulnerable persons or locations where there are vulnerable persons (e.g. long-term care homes). If the child is a confirmed case, the staff member should then self-isolate and seek assessment and testing.
- Staff/ children who are being managed by York Region Public Health (e.g. confirmed cases of COVID-19, household contacts of cases) should follow instructions from public health to determine when to return to the facility.

Based on current screening tools

If your child has ONE new or worsening symptom (that is not related to a known cause or condition) that include:

- Sore throat
- Stuffy nose/runny nose
- Headache
- Nausea/vomiting/diarrhea
- Fatigue/lethargy/muscle aches/malaise

Your child should stay home for 24 hours to be monitored to see whether the symptoms get better or worse. If they start to feel better and symptoms are improving, they can return to school/child care when well enough to do so and no COVID-19 testing is needed. If the symptoms get worse, you should contact their health care provider for further advice or assessment. The health care provider can help you determine whether the symptoms are related to another non-COVID-19 condition, or if they should get tested for COVID-19.

If your child has TWO or MORE new or worsening symptoms (that are not related to a known cause or condition) that include:

- Sore throat
- Stuffy nose/runny nose
- Headache
- Nausea and/or vomiting
- Diarrhea
- Fatigue/lethargy/muscle aches or malaise

Your child should isolate immediately and you should contact your child's health provider for further advice or assessment. The health care provider can help you determine whether the symptoms are related to another non-COVID-19 condition, or if they should get tested for COVID-19

[Covid-19.ontario.ca/screening_tools](https://covid-19.ontario.ca/screening_tools) — updated version Dec 22 2020

Asymptomatic individuals

- Asymptomatic contacts of a confirmed case should seek out assessment based on their primary care provider or Public Health direction after identification of the case. If they test negative and the contact becomes symptomatic, they may be directed to be re-tested.

Symptomatic Individuals

- Symptomatic child care staff and/or children who develop symptoms such as fever and/or chills, new or worsening cough, shortness of breath, decrease or loss of smell or taste individuals should stay home to isolate for 24 hours if symptoms improve you may return, contact your health care provider for further advice or assessment if symptoms do not improve.
- Two or more symptoms such as sore throat or difficulty swallowing, runny nose or nasal congestion (not related to seasonal allergies or other related causes) headache, nausea/vomiting and/or diarrhea, fatigue, lethargy, muscle aches and/or malaise individuals should stay home to isolate. Contact your health care provider for further advice or assessment, including if a COVID 19 test is recommended or other treatment.
- It is recommended that all individuals with symptoms consistent with COVID 19 seek medical attention and get tested for COVID 19
- Individual may return to program when it has been at least 24 hours since their symptoms started improving.
- SEC will notify York Region Public Health if there are two or more symptomatic individuals within 48 hours.
- York Region Public Health will declare a suspect respiratory outbreak.
- Additional guidance can be obtained by calling York Region Public Health at 1-877-464-9675 ext. 73588.

When to stay home

Anyone feeling unwell or showing symptoms of COVID-19 must stay home / not enter school

- Any students and their families must stay home / not enter school if they:
 - Have had close contact with a confirmed case
 - Have had close contact with someone who is showing symptoms of COVID-19 who travelled outside of Canada 14 days prior to symptom onset
 - Have had close contact with someone who lived in or worked in a facility known to be experiencing an outbreak of COVID-19 (long-term care home, prison)
 - Have recently travelled outside Canada; regardless if they have symptoms or a negative test result, they are still required to quarantine for 14 days and cannot enter school during that time

14 Day Isolation

Individuals are required to stay home and self isolate for 14 days if they have travelled outside of Canada, have been in close contact with someone with COVID 19 and those who have been instructed to stay home and self-isolate by a healthcare professional.

Laboratory-Confirmed Case of COVID-19

- All child care attendees and staff in the child care centre should be tested based on cohorts and with direction from York Region Public Health.
- For further questions about testing guidance, contact COVID-19 phone line at: 1-877-464-9675 ext. 77280 between 8 a.m. and 8 p.m. (seven days a week) 905-953-6478 (after hours).

PROCESS FOLLOWING CONFIRMED COVID-19 CASE IN THE PROGRAM

The public health unit will provide specific advice on what control measures should be implemented to prevent the potential spread and how to monitor for other possible infected staff members and children.

- Program attendance records will be stored on site and electronically for accessibility, records will contain contact information for each child.
- Program staff/visitor log will be stored on site and electronically for accessibility.
- SEC will phone families/staff and visitors to report a positive case of COVID-19 as directed and/or required by YR Public Health and provide information regarding next step i.e. contact tracing for public health.
- SEC will work with York Region Public Health and provide necessary documents/information to facilitate contact tracing by Public Health.
- Gloves, eye protection and masks may be instituted for staff to reduce contact with surfaces and/or during increased exposure times.
- All areas visited by the ill persons will be closed. Outside doors and windows will be open if possible to increase air circulation.
- The program will be closed until cleaning / disinfecting has been completed.
- Enhanced Cleaning/Disinfecting will occur. Thorough and frequent cleaning of equipment and surfaces will be reinforced during an outbreak.
- *Please refer to Division Policy 3.7 Outbreak Control and Communicable Disease Reporting's for outbreak mode cleaning/disinfecting.*
- Handwashing frequency will be increased. Use of alcohol-based hand rub containing 60%-90% alcohol content will be implemented in areas where hand sinks are not readily available.
- In areas where ill persons have visited or used, continue routine cleaning and disinfection as in this guidance.
- If it has been more than 7 days since the person with confirmed COVID-19 visited or used the facility, additional cleaning and disinfection is not necessary.

REPORTING CONFIRMED CASES of COVID-19 *as per the recent regulatory amendments of [O. Reg 137/15](#)*

Effective **November 9, 2020**, child care licensees will only be required to report a serious occurrence for COVID-19 related matters for:

- a) **Confirmed COVID-19 cases**; or
- b) **Closures ordered by your local Public Health Unit** (i.e., where a closure is ordered for a centre, program room/s or provider's home due to a **confirmed** or a **suspected** COVID-19 case(s)).

To support these changes, the serious occurrence categories related to COVID-19 have been updated in the Child Care Licensing System (CCLS):

Confirmed COVID-19 cases

For a Confirmed Case of COVID-19 with **no** Related Public Health Ordered Closure

- Submit a serious occurrence in CCLS under "Confirmed COVID-19" category

For a Confirmed Case of COVID-19 **with** a Public Health Ordered Closure

- Submit a serious occurrence in CCLS under 'Confirmed COVID-19' category, including information about the closure in the fields provided; or
- Where there is a confirmed case and a closure is subsequently ordered by Public Health while the serious occurrence under "Confirmed COVID-19" category is still open, please revise the existing serious occurrence to include the closure information in the fields provided; or
- Where a closure is ordered by public health **after** the serious occurrence has been closed, submit a **new** serious occurrence for an "Unplanned Disruption of Service" with the subcategory of "Public Health Ordered Closure" (as per information below).

Closures Ordered by your Local Public Health Unit

- Where public health orders a closure with **no** confirmed COVID-19 case, submit a serious occurrence in CCLS under 'Unplanned Disruption of Service' with the subcategory of 'Public Health Ordered Closure'
 - Where there is an existing/open serious occurrence in CCLS under 'Unplanned Disruption of Service' with the subcategory of 'Public
-

Health Ordered Closure' and an individual develops a confirmed case of COVID-19, submit a new serious occurrence in CCLS under the 'Confirmed COVID-19' category

Individuals to be reported for confirmed COVID-19 cases

Below is the current list of individuals with a confirmed case of COVID-19 for whom a serious occurrence report is required:

- i. a **child who receives child care** at a home child care premises or child care centre,
- ii. a home child care **provider**,
- iii. a person who is **ordinarily a resident of a home child care premises** (e.g. the home provider's child, the home provider's spouse etc.; for complete definition please refer to the Home Child Care Licensing Manual)
- iv. a person who is **regularly at a home child care premises** (eg. the home provider's friend who visits the premises once a week etc.; for complete definition please refer to the Home Child Care Licensing Manual),
- v. a **home child care visitor**,
- vi. a **staff** member at a child care centre
- vii. a **student** at a home child care premises or child care centre,

Encouraging Physical Distancing

Children and staff will remain in cohorts where possible and physical distancing between cohorts (including outside) will be maintained. Physical distancing will be encouraged where possible between children within the same cohort.

Procedure:

As advised by the Chief Medical Officer of Health, public health officials, and outlined throughout government communications; physical distancing is required to control the spread of COVID-19. Keeping a distance of 2 metres (6 feet) from others where possible.

- Physical distancing between children in a child care setting is difficult. Child care staff are required to maintain a welcoming and caring environment for children.

We will encourage more physical space between children by:

- Spreading children out into different areas at meal, dressing and transition times.
 - Incorporating activities that are more individual.
 - Using markings on floors and walls to promote physical distancing.
 - Moving activities outside to allow for more space.
 - Limited chairs at tables.
 - Increase distance between sleeping equipment (e.g., cots and mats) and placing children head to toe if space is limited.
-

-
- Steps will be taken to limit the number of adults in close contact with other adults (i.e. within six feet of another person).
 - Supervising smaller groups of children (i.e. adjusting ratios to include fewer children) and offering increased outdoor play are strategies that support physical distancing.
 - We will convert to virtual/video appointments for visitors and community supports.
 - In shared outdoor space, cohorts must maintain a distance of at least 2 metres between individuals.
 - Shared spaces and structures that cannot be cleaned and disinfected between cohorts will not be used.
-

Scheduling Shifts (if applicable)

As per general SEC practice during COVID19, staff and participants will be registered in cohorts where possible and appropriate to limit exposure, and support business continuity.

Rescheduling Group Events and In-person Meetings

At this time all special activities like field trips, special guests that do presentations, and visitors will be suspended. We will also not be accepting volunteers. As the situation improves, and Public Health advises, community activities will be reconsidered. Children can continue to take neighborhood walks, as long as physical distancing is maintained from members of the public. We will convert to virtual/video appointments for visitors and community supports.

Only essential visitors will be entering our programs while we operate under the Pandemic Response Plan. Ministry staff and other public officials (e.g. fire marshal, public health inspectors) are permitted to enter and inspect a child care centre, at any reasonable time. These officials will be required to follow our screening and enhanced health and safety measures prior to entry.

Parent Drop-off and Pick-up Procedures

All staff, children, parents and visitors must pre-screen prior to arriving at the centre. If you have forgotten to pre-screen your child, staff will be able to provide you with a pre-screening tool from Public Health for you to complete prior to entry.

Parents are not permitted in the school.

Procedure:

Arrivals

Arrival for Families/Children

- Only one adult may drop off a child at one time.
 - If possible, staggered entrance times will be used to support physical distancing.
 - Only staff, children and essential visitors (public health, fire, Ministry personnel etc.) are allowed in the school.
-

-
- Others waiting to drop their child must remain outside (practicing physical distancing) or in their vehicles until the prior parent leaves the building and is at least 2 metres away from the entrance.
 - If in an enclosed space and physical distance of 2 metres cannot be maintained, parents/guardians and staff will use face coverings.
 - All entrances will have hand sanitizer and if required, signage/markings on the ground to direct families through the entry steps.
 - Distancing markers may be set up outside in the event parents begin to line up.
 - Daily Health Screen Requirements will be followed.
 - Personal belongings (e.g., backpack, clothing, etc.) should be minimized. If brought, belongings should be labeled and kept in the child's cubby/ designated area.
 - We are asking that a change of clothing be brought in a sealed bag labelled with the child's name and it will be left at the centre.
 - Sunscreen and indoor shoes should be labelled and brought into the centre on the child's first day of attendance and remain at program.

Staff

- Wear clean clothes each day. To reduce the risk of transmission, we ask that you come directly to the program from your home (do not stop at a store)
- Complete Daily COVID-19 screening prior to arrival
- Wash hands immediately.
- Change into your shoes to be worn at the program only (kept at the centre).
- Store personal items in designated area (identified per site).
- Disinfect all personal belongings with hard surfaces and leave in a designated area (keys, phone etc.).
- Wash hands with soap and water prior to entering your program space.

Departures

Families/Children

- Parents/guardians should call the centre in advance of picking up their child so the staff can get the child ready for pick up.
- All children must wash their hands before leaving the program.
- Parents/guardians must remain outside the designated main entrance where their child will be brought outside to them by staff.
- Only one parent can approach the centre at one time, others waiting to pick up their children must remain outside or in their vehicles until the parent in the program, leaves the building and is at least 2 metres (6 feet) away from the entrance.
- If necessary (inclement weather), parents/guardians may enter the vestibule or main entrance one at a time to pick up their child. If this occurs, they must wear a mask and staff must sanitize door handles (inside and outside) after each parent/guardian leaves the centre.

Centre Staff

- Disinfect all personal belongings with hard surfaces to be taken home when they leave (keys, phone etc.).
- If you use personal items during the day they must be disinfected after each use.
- Wash hands with soap and water before leaving the centre.

The following steps are recommended for all participants in our programs to complete at the end of each day when they arrive home:

- Wash hands
 - Change clothing
 - Wash hands (or bathe)
 - Wash clothing worn for the day
 - Change into clean clothing
-

Nutrition

During this time of COVID -19 recovery children will continue to be provided with snacks however, we have changed our meal practices to ensure there is no self-serve or sharing of food at meal times and that;

- Utensils will be used to serve food.
- Meals will be served in individual portions to the children.
- There will be no items shared (i.e., serving spoon or salt shaker).

Staff will be responsible for serving all food and drinks to children and bowls of food will be kept out of the reach of children on a cart or counter.

Please do not send any food from home unless approved by the staff and labelled with your child's name.

Multi-use utensils will be cleaned and sanitized between uses as per requirements outlined in Food Premises Regulation 493/17.

- SEC will assign a staff for kitchen duties.
- Food handlers must be in good health and practice hand hygiene and respiratory etiquette.
- Physical distancing will be maintained where possible in all areas including kitchen or serveries.
- Snacks, will be individually portioned.
- Washing hands (staff and children) before and after eating food.
- Educators will reinforce "no sharing" food or items between children.
- Limited chairs will be spaced out around the tables.
- Educators will sit and eat with the children while role modeling and engaging in conversations.

Diapers and Washrooms

Washrooms will be cleaned in between each use and only one group at a time will access the washroom-

- All washrooms will be stocked with soap and paper towels.
 - Diaper changing areas will be cleaned before and after the use of each child.
 - For creams and lotions during diapering, never put hands directly into lotion or cream bottles, use a tissue or single-use gloves. Upon arrival at the centre, wipe the cream/lotion container with a disinfecting wipe.
 - Individual hygiene items such as diaper cream will be labelled and stored separately.
-

Sleep Routines

During rest time, we will increase the distance between cots and place children head to toe.

- Where possible cot placement will allow for a 2-metre distance between children.
- Each day after rest time cot sheets and blankets will be laundered.
- Cots will be disinfected daily after use.
- Cots will be stored in a manner where there is no contact with the sleeping surface of another cot. Laundered cot sheets and blankets will be replaced prior to the next rest period.
- Daily routine of sleep supervision will continue. (Policy 3.9)

Public Health Measures (Guidance on the Use of Masks, Personal Protective Equipment PPE) & Handwashing)

As required by the Ministry of Education and outlined in their Operational Guidance During COVID Outbreak, version 3 August 2020 the following_

Personal Protective Equipment (PPE)

Staff will be trained on the proper use of personal protective equipment provided. SEC will ensure an adequate supply of equipment and cleaning supplies to support ongoing operations.

Personal Protective Equipment (PPE) is used in the program:

- When taking care of a symptomatic child at the centre prior to pick up
- When a staff member becomes sick at work
- When coming in contact with blood or body fluids

Gloves and Gowns:

- Gloves and gowns should be compatible with the disinfectant products being used.
- Gloves and gowns should be removed carefully to avoid contamination of the wearer and the surrounding area. Be sure to clean hands after removing gloves.
- Gloves should be removed after cleaning a room or area occupied by ill persons. Clean hands immediately after gloves are removed.

Masks:

All adults in a child care setting (i.e., child care staff and students) are required to wear medical masks and eye protection (i.e., face shield) while inside the child care premises, including in hallways.

- All children in grades 4 and above are required to wear a non-medical or cloth mask while inside in the child care premises, including hallways.
 - All school-aged children in junior kindergarten to grade 4 are encouraged but not required to wear a mask while inside in the child care premises, including hallways (see <https://www.ontario.ca/page/face-coverings-and-face-masks> for information about the use of masks on the provincial COVID-19 website or the [Public Health Ontario factsheet on non-medical masks](#)). Parents/guardians are responsible for providing their school-aged child(ren) with a mask(s).
 - The use of masks is not required outdoors for adults or children if physical distancing of a least 2-metres can be maintained between individuals.
 - Masks are not recommended for children under the age of two (see <https://www.ontario.ca/page/face-coverings-and-face-masks> for
-

information about the use of masks on the provincial COVID-19 website).

- Hands will be washed prior to donning (putting on) a mask and after doffing (removing) a mask.

Signage regarding personal protective practices will be posted throughout the centre.
